EMMANUEL JAMES ALAO

FULL-STACK WEB DEVELOPER | REACT | NEXT.JS | TYPESCRIPT | NODE.JS | MYSQL

Abuja, Nigeria | +234 806 129 9131 | alaoemmanuel1978@gmail.com

GitHub: github.com/emmy-tech247 **Portfolio**: https://emmy-portfolio-cyan.vercel.app

LinkedIn: linkedin.com/in/emmanuel-alao-9a20b718a

PROFESSIONAL SUMMARY

Full-Stack Web Developer with practical experience building responsive websites, business applications, management systems, dashboards, APIs and database-driven platforms. Skilled in React, Next.js, TypeScript, JavaScript, Node.js, PHP, Laravel, Python, Django, MySQL and PostgreSQL. Experienced in freelance development and web development tutoring, with hands-on work across frontend interfaces, backend functionality, authentication, database design and business workflows.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Python, PHP, HTML5, CSS3.

Frontend: React.js, Next.js, Angular, Tailwind CSS, Bootstrap, responsive web design.

Backend & APIs: Node.js, Laravel, Django, PHP, RESTful API development and integration.

Databases: MySQL, PostgreSQL, SQLite, database design and management.

Platforms & tools: WordPress, Microsoft Azure, AWS, Vercel, Git, GitHub, VS Code, XAMPP.

Additional: Authentication, authorization, role-based access control, UI/UX implementation, debugging; React Native, Flutter, Expo.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Web Developer | Self-Employed, Remote; 2024–Present

- Develop responsive websites and full-stack applications using React, Next.js, TypeScript, PHP, Laravel, Python and MySQL.
- Build frontend interfaces and backend features, including REST APIs, authentication, database structures and business workflows.
- Implement functionality for management systems and administrative platforms, including role-based access control.
- Troubleshoot application issues and manage projects from requirements gathering through development, testing and delivery.

Web Development Tutor | ASTUTE, Abuja; 2020–2024

- Taught HTML, CSS, JavaScript and React through practical exercises and guided students in building responsive websites.
- Introduced Git, GitHub and basic Python; supported learners with debugging, programming concepts and practical projects.

SELECTED TECHNICAL PROJECTS

1. **Modern School Website– Next.js | Next.js, React, TypeScript, PostgreSQL**

   Developed a professional school website designed to provide students, parents, and visitors with accessible information about academic programs, school activities, and institutional services.

   Structured academic and institutional information.

   GitHub: https://github.com/emmy-tech247/school

Live: https://school-delta-jade.vercel.app/

2. **Premium Real Estate Website | Next.js, React, TypeScript, Tailwind CSS**
   Built responsive property showcase pages and intuitive property discovery layouts for desktop, tablet and mobile.
   GitHub: github.com/emmy-tech247/real-estate-using-next.js
   Live: real-estate-using-nextjs.vercel.app

3. **Developer Portfolio | React, Next.js, TypeScript, JavaScript, Tailwind CSS**
   Created a responsive portfolio presenting technical skills, services, selected projects and contact functionality.
   GitHub: https://github.com/emmy-tech247/emmy-portfolio
   Live : https://emmy-portfolio-cyan.vercel.app/

4. **Loan Management System – PHP | PHP, MySQL, HTML, JavaScript**
   Built loan processing, member management, repayment, transaction and administrative functionality.
   GitHub: github.com/emmy-tech247/Loan-management-system
   Live: dcgcoop.com.ng

5. **Loan Management System – Next.js | Next.js, React, TypeScript, MySQL**
   Developed a platform for member management, loan applications, approvals, repayments and financial records. Implemented staff workflows, administrative dashboards, authentication and role-based access control.
   GitHub: github.com/emmy-tech247/Loan-management-system-using-Next.js

Additional projects: Custom Business WordPress Website; TypeScript Landing Page.

EDUCATION

Computer Engineering – Ahmadu Bello University, Zaria, Nigeria.
Master's Degree (M.Sc.) in Computer Engineering – In Progress.
Postgraduate Diploma (PGD) in Computer Engineering – February 2015.
National Youth Service Corps (NYSC) – Exempted
.

CORE COMPETENCIES

Full-Stack Web Development • Frontend Development • REST API Development & Integration • Database Design • Authentication & Authorization • Role-Based Access Control • Responsive UI • Debugging & Troubleshooting • Independent Project Delivery.

CAREER AVAILABILITY

Open to fully remote full-time and contract opportunities. Preferred roles: Full-Stack Developer, Frontend Developer, React Developer and Next.js Developer.
